Profile

S'von began his career in St. Louis, MO as an inspiring musician. He studied at the St. Louis Conservatory (CASA), where he started on percussion but soon found his passion for the piano. From there, he continued his studies at Jackson State University and soon decided to reach for higher heights by moving to Los Angeles CA, to pursue a career in the entertainment industry. After what seemed a lifetime of knocking on doors, S'von landed an opportunity to tour with Kelly Clarkson. Working on that tour opened my myriad of opportunities which included working with Jessica Simpson, Omarion, Rihanna, and Smokey Robinson...just to name a few. S'von has recently expanded his horizons by producing music as well. His latest credits include Justin Bieber's "Home This Christmas" featuring The Band Perry and Smokey Robinson's "Now and Then" CD. S'von is also an endorsed artist for Roland Music Worldwide and Gator Pro Tour Cases.
